

Premium Digital Menu

for Snow Spoon Cafe

Your own menu website. You control everything.

A beautiful, mobile-first digital menu customers open by scanning a QR code at the table — no app, no Swiggy/Zomato cut, no middleman. Your website, your customers.

- **Premium menu, any phone**

Elegant, lightning-fast menu with photos, categories, search & prices.

- **Update it yourself — no code**

Change prices, dishes, photos & 'sold out' in seconds from a dashboard.

- **Feature your bestsellers**

Drag & drop to arrange the exact order customers see.

- **Turn diners into 5-star reviews**

A guided tool drafts a Google review & one-taps them to post it.

- **Built for Puttur**

Live location with Maps directions, gallery, hours, WhatsApp & Instagram.

- **Owns your brand**

SEO-ready so you show up on Google. Secure, reliable, always online.

Why it pays for itself: more reviews, higher Google ranking, more walk-ins.

No commissions. No reprinting menus. Change a price in 10 seconds.

See it live — scan this code

Open the real Snow Spoon menu on your phone right now.

One-time setup. Your own link & QR code.

You update everything yourself — no developer needed.
